# PHP Ultimate eBay Store

Hits: 2,123

**Description:** The Ultimate eBay Store is a powerful way of displaying hundreds, or thousands of products which are currently for sale on eBay, earning you a commission for every bid and new registration.

- Easily integrated into your existing website design
- Display unlimited 'Live eBay Listings'
- Completely customisable to your own website design
- Supports 14 different currencies
- Supports 14 different country codes

All modifications are carried out in the config file, so there is no need to modify the script itself so you are not required to know any programming knowledge.

## Resource Specifications

<b>Platform(s):</b>	linux
