Great program, Mar 12th, 2006

I currently use Autoresponder Pro on all my 5 websites. Excellent program - very reliable. I signed up with the hosting account to host the script and the creator of the program has been absolutely phenomenal with customer support - any issue I've had has been resolved in a matter of a few hours, sometimes minutes!

The follow-up emails get through very reliably and the broadcast feature works like a charm.

HIGHLY recommended - been using it for almost a year with no real problems.

I use it for both followups and my newsletter., Jul 10th, 2007

I am using autoresponder pro since 2 years. It is excellent software and author provided very good support once I stuck with the host change. He is very good.

Very useful software. Best software I have ever bought., Jul 15th, 2007

I bought Follow up autoresponder for my mother. She wants to send recipes daily for her subscribers. Since then it is sending follow ups very correctly. Another thing I like is automatic unsubscriptions. Thank you Radhika for a great software!
