Customer Backup

Hits: 1,007

Description: Customers are vital to a company and maintaining a steady relationship with them will help you increase sale and keep in touch with them. By storing information about your customers you can inform them about new Promotional Offers, analyze what product is mostly bought by them, provide them with professional technical support and much more. Customer Backup will help you perform this task simple and professionally.

Using Customer Backup is very simple! Every employee will be able to manage the Database and update it accordingly. This will avoid training need to teach them how to use this Application. Since this Application avoids the Database View and presents the users with simple Fill-In fields, adding and updating records will be a quick task.

Features:

- Neat Interface
- Statistical Tools
- Report Generator
- Quick Backups
- Quick Note Creator
- Intelligent Appointment Schedule
