NetSupport School

Hits: 1,489

Description: NetSupport school the classroom management software offering a comprehensive range of features including the ability to display a screen on the students workstation or view up to 16 screens on the Tutor machine simultaneously. As standard, a full testing module is included allowing for the design and delivery of customised tests together with full application and web control modules, ensuring Students use only approved applications on their workstations and visit only approved websites. Available fully localised in English, Spanish, French, Italian, German, Japanese, Portuguese and Arabic, NetSupport School is the ideal application for Computer Based Training, Group Work, Monitoring, Examinations and One to One Instruction. By using NetSupport School, educational institutions are able to facilitate the effectiveness of their IT resources whilst improving the quality of training and tuition provided.
