B.A.M. - Blog Auto Machine

Hits: 708

Description: Finally, A Desktop Tool That Automates The Entire "Blog & Ping" Process And Gets Your Web Pages Crawled, Indexed and Even Ranked in Less Than One Week.

B.A.M.'s PATENT PENDING TECHNOLOGY TAKES AUTOMATED BLOG AND PING TO THE NEXT LEVEL

BAM's cutting edge technology minimizes the ability for blog and ping services to detect that the process is being done by an automated tool. This includes the ability to randomize the number of posts, set a random post interval and using proxy server addresses.

BAM provides features not found anywhere and continues to lead this niche offering powerful benefits that not only maximize the blog and ping process, but also help you monetize your online initiatives.

Find out how many people not only increased their search engine rankings and created free search engine traffic to their website but used BAM to increase their revenues at the same time by adding Affiliate links, advertisements or other revenue sources with BAM's exclusive 'Posting Add-On Feature'.

Resource Specifications

Version:	2.0
