# PayPal Shop Maker

Hits: 6,179

**Description:** Creating a PayPal shop to sell your products on your website was never easier. With PayPal Shop Maker you can build your online shop without the need of learning how to integrate PayPal.

You can quickly and easily work with your product information directly in PayPal Shop Maker and create your PayPal-enabled shop with built-in JavaScript Shopping Cart, PayPal Buy Now Button or standard PayPal Shopping Cart. The generated pages for the storefront can be in HTML or ASP or PHP, so you can publish them to virtually any server. Within minutes your site will be able to accept credit card payment through PayPal. PayPal Shop Maker supports sophisticated custom shipping, tax and discount calculation as well as PayPal provided shipping, tax and handling. You can also optionally use MS Access database with ASP or MySQL database with PHP, Instant Payment Notification (IPN), Payment Data Transfer (PDT) and Digital Goods Download by ASP or PHP.

Its a little confusing at first but once you get the hang of it, its a great program to use. Its straight forward and to the point. If your looking for a program that you just accept PayPal and want to leave the item description, price, shipping and discounts on multiple item purchasing, PayPal ShopBuilder is a great solution.

Its simple and to the point. I've looked at alot of pricey softwares and not exactly what I looked for.

PayPal ShopBuilder Recommend it Great Price Worth the Look!
