Mail Machine Pro

Hits: 13,508

Description: Mail Machine Pro is a professional mailing list manager written in php. This program features a web-based setup wizard, unlimited lists and subscribers, multiple admins, personalization of newsletters with user data, autoreplies, scheduled mailings, email attachments, link tracking, bounced email management, open/read tracking, opt-in/out, optional SMTP sending, detection of duplicate subscribers, mailing lists stats, import/export of subscriber list, automatic backup and restore, real-time message queue and more. Other programs with these features are priced much higher. Check out our demo and prove to yourself that Mail Machine Pro is the best mailing list solution available. Included in the cost of the program is free installation and support!

Excellent!!!, Sep 24th, 2006

Reviewed By: Quokka

Need to say this to you:

Stop seacrching; go with mailmachinepro!

As a professional webdesign company we implemented several expensive and self proclaimed 'best' newsletter scripts last 7 years.

For a fraction of the cost of those tools yoe buy mailmachinepro. Mailmachinepro comes with same fuctionallity AND excellent and friendly support from Mike in forum and by e-mail..

Excellent!

The best mailer for the price on the market, Jan 25th, 2007

Reviewed By: feverhost

When I saw the price tag for only \$40.00, I decided to check out the software expecting it to be at least, but not great. Usually thinking... you get what you paid for.

After a very quick setup and an intial test through I was immediately impressed with this software. For the price is this easily the best mailer on the market... period.

This software could easily be hundreds of dollars and still be worth every dollar. I will recommend this to all my business associates and friends!

Excellent product, support, documentation, and updates, Mar 31st, 2007

Reviewed By: DGPhotog

The product competes with MLMs at much higher prices making it an excellent value. Documentation (downloadable .pdf) is kept up-to-date with each release. Support tickets and forum requests are responded to in a timely manner. The developer is very interested in hearing about and implementing new features. It has broad capabilities with excellent reporting on delivery, bounces, who read, click-throughs making it very useful for marketers. I highly recommend this application.

Mail Machine Pro, great choice!, Jan 12th, 2008

Reviewed By: jiveaces

I recently got this software to automate the mailing list for my band a bit worried having no PHP experience.

At a mere \$59 I took the plunge and I must say that it was easy to install, any areas I did get stuck, Mike and his team of samurai class programmers were on hand at a moments notice to bail me out and even did it for me free of charge.

It was also easy to get to grips with and start running almost instantly! It is also fully customizable so you can look like you did all the hard work
