## FEX F-Delivery Paypal

Hits: 1,889

**Description:** FEX F-Delivery is a cutting edge system that gives more control, automation and security selling digital product(s).

Today, PayPal receive payments for products worldwide. One problem faced by many peoples however is how to provide a fast and secure way to deliver digital products after a successful transaction. For who sell software, e-books, music or any digital media on the internet, F-Delivery provides the perfectly solution.

- Easy and fast installation.
- Does not require use of database.
- Works with any PHP,ASP,CFM,JSP web store, or even with PayPal buynow buttons.
- Report complete statistics about the downloads.
- Generate secret links, nobody ever knows the actual location of the download files.
- Can expire links after a fixed time period.
- Supports unlimited products in one order.
- Can be set to work manually, if need to aprove each order.
- Download links supports download managers.
- Can be defined to work with a custom email.

**F-delivery and flash cart are the bomb!**, Jul 8th, 2005

Reviewed By: pixelsdelivery

I never post to message boards or give compliments but the guys/gals at FlashExperience and the components: f-delivery and flash cart are the bomb. They were helping at 1:00 in the morning when I had questions and the response time was super quick. (mins)

Believe me, I searched for a digital delivery system far and wide, some other companies even charge you a monthly fee. If you need a hoTTT site with digital delivery and a flash shopping cart, use the f-delivery system and the flash cart they have. A real time saver.

I know it sounds like they paid me to say this but when you are stuck at 1:00 in the morning trying to figure out some other companies crazy php cart or some flash cart with whack graphics, remember this post and my voice saying you should have gotten flashexperince.

Thanks a lot Cosmo and sheila at flash experince you guys/gals Rock!
