# Statomatic

Hits: 4,717

**Description:** Statomatic is a real-time web site traffic analysis tool written in C++. It will track and analyze your web site hits and generate detailed, on-demand reports in HTML format with interactive pie-charts and graphs. The fastest and easiest way to get up to the second statistics for your web site from any web browser at any time. Works with or without server log files of any format, on any web server.
