Loan Status Tracker

Hits: 779

Description: Provide your borrowers with their Loan Status that works 24/7 using your Point Calix Loan Origination software right from your Loan Processors PC.

You do not need to hire a full-time processor to do this. 60 seconds is the only time spent at the end of the business day to produce and upload your most recent loan status version for your borrowers to view.

Eliminate unnecessary calls to your Loan Officers and Loan Processors utilizing the advantages of this hosted application, that gives you user data in real time, any time you wish.

This is a Hosted Application.

Resource Specifications
