# Free Polling Script

Hits: 4,306

**Description:** Create and manage your own poll is REALLY easy with AJPoll. This free php script lets you create, edit and test your poll (up to 7 answers) through an easy to use web interface. You may insert your poll into any page you want simply including one php file. AJPoll show results as colored graphical bars plus votes number and percentage. It prevent multiple votes using cookies and store all information in a text file so you don't need any database. AJPoll is valid XHTML 1.0 code and is viewable with any browser, fully customizable style. Note: You can manage and run just one poll, every new poll will replace the older one.

**No Support**, Jul 21st, 2005

Reviewed By: Patilla

I was unable to receive any kind of support in properly installing this script. Not a nice company. The instructions are not very clear at all.
