Dolphin Accounting Software

Hits: 9,614

Description: Dolphin is Web-based accounting software that allows access to a database from anywhere with an Internet connection, and features order entry, invoicing, a shopping cart, inventory control, accounts payable, accounts receivable, purchasing, general ledger, a CRM, marketing, a user friendly point-and-click environment, the ability to email directly from program, bulk emailing, and an easy-to-use user administration area. The manual can be downloaded or viewed online.

The Dolphin Enterprise Edition is now available and contains enhanced contact management, faster report generation, new menu system/homepage, increased calendar integration and more.

Dolphin is now available in four different versions including a free version.
