### **Great Script for SEO**, Feb 22nd, 2007

Reviewed By: john24

We chose 'SoftAcid Link Exchange Pro' after a long and profound search over the net for a decent ASP link exchange application. From the start, this script met with all our expectations of this kind of application, regarding both functionality and friendliness. Installation and customization were very easy and intuitive, yet powerful. We could say a lot more about the script, nevertheless, you may find the most valuable quality of this product to be the technical support. Highly Recommended!
