FtpWand

Hits: 476

Description: FtpWand enables you to synchronize your local and FTP files and folders.

1. Smart synchronization

FtpWand detects and updates only modified files.

2. Synchronization preview

FtpWand provides a complete and easy to use preview of files before synchronization.

3. Easy to use software

A wizard helps you synchronize your files with few steps. Updating your web site is as simple as few mouse clicks.

4. Improve your web site availability

By updating only modified files, FtpWand reduce the time when your site is "broken" while uploading files.

Resource Specifications

Version:	1.0
