## Guestbook-Comment Script

Hits: 5,172

**Description:** This is a re-write of a quasi-chatroom script (also available on my site), simpler but a tad more elegant. It's intended purpose is to allow a 'topic-specific' comment area on multiple pages of a site. Features display of posters country flag (based on an IP lookup courtesy at hostip.info), single file to install, easy to create multiple instances, flexible implementation.
