Text Rider

Hits: 5,972

Description: This is an advanced weblog/Content Management System that allows you to post all entries you want. It has a template system, an upload center, modification center, search function, archive section, RSS feed, commenting system, Unlimited number of users, User Levels - Admin and writers and the best thing about it is that it only uses text files as database.(something like cutenews but smaller and easier to use)

Resource Specifications

Version:	1.4
Platform(s):	linux, windows, freebsd, osx, sun
