eNewsletter Pro

Hits: 1,694

Description: eNewsletter Pro is email newsletter software and email marketing software for managing and distributing HTML or Text formatted newsletters via email. Our Email marketing software enables opt-in email lists, email newsletters, email announcements, email list hosting, direct email campaigns and bulk email campaigns. The product supports an unlimited number of mailing lists and newsletters. Each person can subscribe to one or more Newsletter Lists. The system uses a confirmed opt-in method to prevent malicious behavior. eNewsletter Pro tracks full statistics with each email marketing campaign including views, opens, and clicks on each link.

Two editions are available -- eNewsletter Pro Standard and eNewsletter Pro Enterprise. The Enterprise edition supports multiple users for managing separate lists. The Enterprise Edition also includes advanced features such as bounced address filtering, high-speed delivery, automatic mail client HTML detection, scheduled delivery and more.
