## Breadcrumb (click trail) navigation

Hits: 3,522

**Description:** This is a simple, short class, and uses sessions to keep track of the click trail. To use it, you just need to add information on each page about where that page should appear in the click trail. Examples included, and further information including a tutorial can be found here: [http://www.ecreate.co.uk/diy/breadcrumb\\_nav.php](http://www.ecreate.co.uk/diy/breadcrumb_nav.php)
