MX Kollection ASP - Work Smart

Hits: 1,622

Description: MX Kollection 3 is a bundle of InterAKT's most popular MX extensions that will change the way one creates dynamic web applications with Dreamweaver. If you are a ColdFusion, ASP VB or PHP developer you will find that our product will enable you to develop e-Commerce, CMS, CRM, back-end and other web-based solutions with increased efficiency, quality and capability. Our customers think of it as the next level in Dreamweaver MX visual software development. Benefit from: --File and image upload; --Advanced form validation; --Professional user authentication; --Automatic send e-mail capabilities; --Lists and forms with CSS support; --Multiple insert and delete; Multiple updates in Excel like grid; --Visual query builder; --13 different widgets; --Looper and nested repeat; --Functional Server Side Includes; Dynamic web development even for designer. Do projects that were previously out of your reach.
