Color Picker Pro

Hits: 2,088

Description: Color Picker Pro v1 is a professional Macromedia FLASH component that can be used along with your flash movies. Color Picker Pro v1 is designed exclusive for Flash MX2004. Color Picker Pro is a great tool and extremely useful. From the properties panel you can choose the color to begin with, and the visible state of the Color Picker Pro panel. The tool's skin design is very modern and streamlines to integrate into any existing website design. The best feature of color Picker Pro is the ease of functionality.

color picker pro is amazing, Jul 12th, 2005

Reviewed By: papusharu

te best color picker for flash that i've ever seen. It works like magic, and looks very cool also. While other color pickers costs up to 200\$ and do nothing like this, i can say that color picker pro totaly worths all the money
