poor dating script, Sep 17th, 2006

This dating script is very poor if you buy this and you are new to website or not in our case you will find it very hard to do the updates every 3 or 4 months as there are always errors and the instructions are not so easy to understand either. The only thing you can do is pay for your updates to be done and this costs lots if you have to do it every 3 to 4 months. In there forum you cannot put any chat about this script if you have anything bad to say as they check the posts first 0 rating
