TOS Generator

Hits: 1,847

Description: Offer your webhosting customers the facility to generate your latest TOS, AUP & Privacy with their own company name! In the competitive webhosting market your best way to success is to offer your customers as valuable & unique services as possible. Let your customers save the hassle with updating their TOS, AUP & Privacy statements. Notify your customers when you have updated your TOS/AUP/Privacy with an url to this Generator Script. They just have to enter their company name and email, press the button and their own custom TOS, AUP & Privacy are created!!!

The TOS, AUP & Privacy can be downloaded as a html doc and also be sent as a text email.

The web form is very easy to implement in your current design.

The script comes with a standard TOS, AUP & Privacy text and can of course be replaced with our own versions.

Resource Specifications
