Cartweaver PHP Shopping Cart

Hits: 2,495

Description: Cartweaver 2 PHP can be quickly installed into your Dreamweaver web site using the Cartweaver extension suite! You can quite literally install Cartweaver into your website, configure a few simple settings, and begin adding your products in less than 15 minutes!

Cartweaver 2 PHP is not just a shopping cart extension for Dreamweaver; it is a complete e-commerce solution with all the files you need to create your online store. You get everything; extensive PDF documentation, the Cartweaver 2 Extension Suite and all source code/application files should you choose to develop in another web development application or prefer to work in code view. The package also includes your MySQL database, just run the MySQL creator script in MySQL Query Browser or the PHP admin of your choice to create the complete Cartweaver database.
