AddObject NLSScroller Professional

Hits: 8,082

Description: NlsScroller is an unique HTML scroller control. NlsScroller scrolls any html content such as images, text or links automatically or manually. The scroller supports pluggable cross browsers effects such as continuous scrolling, fade, slide and wipe effect. Each effect has its own configurations/settings. New dynamic functions (AJAX based) allows you to scroll dynamic content loaded from server, database or even RSS feed from any websites! With all the features, NlsScroller is still easy to use and implements. NlsScroller is a great component to improve your websites or web applications. Creating advanced slide show, presentation and photo album is no longer a problem.
