# VueChat

Hits: 4,315

**Description:** VueChat is web based Customer Service software featured with live video and voice chat.

VueChat is a unique customer service solution that enables company employees to immediately communicate with their customers, and therefore generate greater sales and can make more and more satisfied customers.

VueChat Enterprise allows customers and website visitors to contact directly with company representatives or government employees through a web browser. Customers and website visitors can reach representatives through Instant Messages, Live Video/Audio or text chat, E-Mail and by placing telephone calls over the Internet.
