eQuotes

Hits: 1,066

Description: This script will manage and display categorized quotes on your website. Posting positive customer feedback on your site is proven to encourage new purchases, eQuotes will make it easy for your customers to submit comments and even easier for you to manage and display these comments. You could also use this script to display quotes by famous people on your site. We use eQuotes on our own sites to display quotes by satisfied customers.

Possibly good, but it won't run, Jan 5th, 2006

Reviewed By: BernieB

This is a promising looking package, with decent documentation, but the script itself was broken inside the zipfile download. Attempts to repair it still resulted in server errors and I finally gave up on it. No reply yet from the authors to the email I sent about 12 hours ago.
