# Image Host Premium

Hits: 4,948

**Description:** Image Host Premium is the perfect image hosting script that allows webmasters to start their own highly profitable image hosting service. Members can signup for both free and paid hosting plans using Paypal and start uploading their images and create galleries to showcase their photos or share images with family and friends. Other Features include resize images, auto html code generation and admin backend such as template editing that allows you to fully customize the layout and content of your site, IP banning, customize member plans, create banner ads, management of users and photos plus many more. Setup is quick and easy and what's more each purchase comes with a 30 days money back guarantee.

Reviewed By: [Answerpuppy.com](http://Answerpuppy.com)

This script is just a repackage job of PHPImageHost. The company selling this is in severe copyright violation. It is IDENTICAL except for the name. The author of PHPImageHost has disappeared, these thieves decided to make a profit. I've contacted [eff.org](http://eff.org).
