eFormMailer

Hits: 6,369

Description: Create powerful web forms in less than one minute! Eformmailer is the easiest way to collect member information or requests. Need tech support? We can even install it for you.

- Create as many forms as you like.
- Get instant feedback sent your email of choice
- Let your visitors create their own online forms.

No experience necessary: with Eformmailer there is no need for CGI bin, configuration, complicated programming, or additional software. eFormMailer will automatically and instantly create the complete web form for use online.

How easy is it?

- Pick the data you would like to collect
- Configure everything on just one page
- We do the rest!
