CSB 1.0

Hits: 1,516

Description: CSB 1.0 is a web store, combining all the necessary modules for a high class e-commerce application - products catalog, shopping cart and affiliate system. Using CSB 1.0, you are able to add unlimited items to the products catalog. The catalog structure can be optimized thanks to the ability to create unlimited levels of categories and subcategories. Eleven shipping options, including UPS and USPS, to choose from are implemented into the web store. You may select from four payment methods, including PayPal.com, 2checkout.com and Authorize.Net systems. The web-based admin interface provides you with the ability to manage and control all the web store functionality. The company additionally offers you its quality hosting services, that fully comply with the CSB 1.0 hosting server requirements. Their dedicated server is used to host the web stores only. Highly-qualified support department web developers will install your web store for free. The available support services are free during your license contract.
