Signup & Win! Script

Hits: 5,120

Description: Similar to signupmult.pl, this script also saves new subscribers to a file. pickwin.pl runs once a week using a CRON, and randomly picks 3 winners (settable) from the file (who have not already won in winners.txt) created by signupwin.pl and emails them. winners.txt is purged manually each time the contest prize changes (every 5-6 weeks).
