TeeChart .NET

Hits: 962

Description: TeeChart for .NET v3 continues in the TeeChart tradition of offering depth of functionality across a myriad of of foreseeable application requirements. Built on more than 10 years of work with customers, the functionality-set is truly HUGE! Version 3 for .NET also embraces much of what's fantastic in Microsoft's .NET framework to offer for the first-time specifics for Reporting Services, ASP.NET with Ajax plus under the cover improvements such as use of generics and ICloneables. TeeChart breaks the mould and industry standard by offering across the board support for Winform, WebForm, Compact Framework, Reporting Services, Gauges and Maps all in one action-packed version! It will get better too! Version 3 is expected to pack more and more punch throughout the coming months.

For a closer look at all functionality, see the specifications listed at:
