RSS News JavaScript Ticker

Hits: 3,284

Description: This version of JavaScript Ticker can show news from any RSS feed. Also, each news is presented as a link, so user can click to the source of the news. The scroller is built using JavaScript, PHP and CSS. It is using JavaScript for text rotation, CSS for customization (fonts, colors, border etc) and PHP for content generation. In order to integrate this into your site you must have minimal JavaScript or/and PHP or/and CSS knowledge, but we are offering full email support for installation. Ticker can be easily customized for fonts, colors, size and speed.

Resource Specifications

Version:	1.1
Date Added:	Sep 22nd, 2005
