Slideshow Pro Wizard - SSPWIZ

Hits: 2,227

Description: SSPwiz is the complete, multi-user, easy to use, web-based administration system for the Flash Component Slide Show Pro. The easiest way to optimize, upload, organize, manage and share your online Slide Show.

- Database free - XML driven - Choose which users can view or administer each album
- Automatic optimization of images on Upload at different sized depending on your configuration.
- Upload of zip files with multiple images or scan any given folder in your server
- Upload jpgs, flash animation, and videos as slides, and mp3 files as background audio per album
- Add, edit, delete, and reorganize albums and images
- Add, edit, delete users
- Optional skinable interface with multiple slideshow sizes
- Display of list of users currently logged in
- Control Panel allows to customize preferences
- Bilingual English - Spanish
