TaskFreak! Todo list / Task manager

Hits: 21,905

Description: TaskFreak! is web based project manager. Simple but efficient, it lets you organize tasks per project, priority and deadline. Easy to install and to use, a particular attention has been made on the design and usability in order to improve the productivity by not spending too much time on the tool itself. It is compatible with PHP 4 and 5, AJAX enabled, and supports both mySQL and SQLite.

Multi language and multi format support, many plugins are also available, allowing time tracking, file uploading, email notification and more.

Great!, Apr 7th, 2006

Reviewed By: SgtSlaughter

This script is great for keeping track of what you have to do in a project! It helped me tons, and I found no errors or bugs. The install readme could be a bit more directed at beginners, but very nice! A++
