# The Includer

Hits: 877

**Description:** This script is THE solution if you don't have Server Side Includes (SSI) on your server but want the features it brings. The Includer will grab the content of any file and display it where you want with the use of a simple Javascript tag. I don't need to tell you what you can do with this CGI because you can do everything you can do with the SSI include tag.

Resource Specifications	
Version:	1.1
Platform(s):	linux, windows
Date Added:	Sep 29th, 2005
Last Updated:	Sep 29th, 2005
