# Uploader PRO

Hits: 37,732

**Description:** Uploader PRO is the most advance and comprehensive upload script ever created.

You can upload any file of any size without the use of ftp. Everything is managed by the admin panel. With our file browser you can view files and images and also zip entire folders and download them. The admin panel has hundreds of feature which includes features like image watermark (which will add a watermark for all uploaded images) and other useful features such as bandwidth restriction, bandwidth usage, folder size and deposit size pie to name a few. The script is fully customizable with skin support.

Full demonstration site available so you can see both the front and admin sides of this application.

### **IS THIS A LEGIT COMPANY?**, Nov 12th, 2005

They except payment but do not give you the script. They also do not answer emails. I emailed them several times but got no resonance. NO SUPPORT  
No way to contact them otherwise. I also found another company selling the same exact script. Gives you the impression this may be an internet scam.  
They are also located outside the US.

### **Works Great**, Nov 12th, 2005
