PHP AGTC-Click Counter v1.0a

Hits: 6,474

Description: If you want to keep a track of how many people are clicking on your links, photos or downloads then you need PHP AGTC-Click Counter v1.0a. Very easy to install, will require mysql.

All you need to do is replace the original URL of your link with a Click Counter Link ID and each time somebody clicks on your link the Link ID will increase by 1. View the counter admin panel and see how many clicks you have. You can add as many links as you like. Easy to install, some HTML knowledge required.
