ZoneX 1.0.3 - Publishers Gold Edition

Hits: 10,791

Description: ZoneX features the most advanced and sophisticated forum advertising engine, built-in. Some of the features: dynamic contextual ad display (keyword driven), impressions and/or clicks driven campaigns, slot positions, statistics and many more. It has other advanced features: Forum optimization for search engines (SEO), Popular topics engine, Related topics engine, Feedback engine, Vote contest/Wishlist, News, Announcements Teasers, Forum Newsletter, Forward to Friend, New forum search engine (mnoGoSearch), Editable Advertising, Contact, Terms and Privacy Policy pages, and other advanced features. After some research and statistics analyzes ZoneX developers have noticed that many users leave forum when they're forced to register to post topic. So they came with "inverse posting mode"(tm). If you're starting a forum from the ground ZoneX will make successful community building easy. If you already have a forum you will experience at least 10X higher search engine traffic, using ZoneX.

[ZoneX 1.0.3 - Publishers Gold Edition](#)

Impressive discussion board, Oct 27th, 2005

Reviewed By: hardpatch

I've used pure phpBB for years on many sites. But I was always looking for something better optimized with some advanced features. I've almost gave up. Fortunately I came upon ZoneX which is real shining star. It features few excellent modules like an advanced SEO, vote contest and newsletter management. Moreover I was able to easily upgrade my existing phpBB installations to ZoneX. Big thumbs up to developers. Great job!

Great work and great new features!, Oct 30th, 2005

I just installed this forums and I must say it works really great for me. I always searched for related and popular topics feature and newsletter subscription module, but none of FREE Bulletin Board Systems has this features. The best thing is great Search Engine Optimization and some additional tools for admins and moderators.

I hope this community will grow and the ZoneMetrics guys will work further to implement more new features.

Great work guys!
