DB Manual V1.3

Hits: 901

Description: Fact: Documenting databases is not the most pleasant job, it's a boring job and you loose a lot of time (Do you recognize this feeling?). But: database documentation is important and necessary if you want to grow, adapt it easily in the future etc. How: DB Manual helps you documenting databases automatically, quickly, easily and put the information in the world famous MSDN–layout. What: DB Manual writes documentation about tables, views, stored procedures, triggers, functions, packages, dependencies,...
