Dbvisit - Automated Oracle Standby Database

Hits: 2,176

Description: Oracle Data Guard alternative and used worldwide. Dbvisit can implement automated Oracle Standby Database without Data Guard. Dbvisit is simpler and easier to use and install than Data Guard. Dbvisit can be used with the Standard Edition of Oracle from version 8i to 11g. This makes Dbvisit a very cost effective Oracle Standby Database solution compared with upgrading to Oracle Enterprise Edition to enable utilisation of Oracle Data Guard. Includes many features such as Graceful Switchover, supports Oracle RAC, ASM, OMF and flash recovery. Also includes built-in alerting and monitors and manages the Oracle archive log files.

Resource Specifications

Version:	5.1
