## Dynamic Converter Currency Conversion Hits: 1,355

**Description:** <P>Dynamic Converter is a service that can be added to any e-commerce web site. Dynamic Converter allows your site to display products prices in the visitors selected currency inline along side your base currency.

<P>For example, your US dollar product prices could look like this for someone from Australia:<BR>

US \$100.00<BR>

AU \$133.48<BR>

<P>It is easy to install (1 line of code) and supports all available shopping carts.

<P>Dynamic Converter is free and can be added to any website by simply adding 1 line of code to the bottom of your site.

<P>A Live Demonstration is available that allows you to see exactly what your site could look like with it installed.

### Resource Specifications
