Watermark It!

Hits: 1,863

Description: Watermark It! is designed to help you protect your images from theft with relative ease. Watermark It! bundles a rich list of features to allow you to watermark images individually or in bulk (batch process). Plus you create your watermarked images where you are going to use them: on your website. Watermark It! also includes the functionality to allow you to create thumbnails of your images in seconds.

While the samples on the website look okay, try filling out the contact form and it returns an error. Support for this script is unlikely.
