Slide out Help panel

Hits: 6,774

Description: A useful script when you want to show help or other information on your web page.

A panel slides out from the left or from the top when you press F1("Help"). You can also use links to show the panel.

The script is tested in IE5+, Firefox and Opera.

Reviews for Slide out Help panel

Great so far, Feb 13th, 2008

Reviewed By: txpacotaco

I copied the js and css from your example's source, and it works fine for me so far (haven't tested it outside of Firefox 2.x). I haven't taken the time to read through and understand the script, yet. Thanks for sharing this!
