iSalient - Enterprise level survey solution Hits: 147

Description: Easy to use, enterprise-level solution for creating and managing web-based surveys of any size or complexity. iSalient allows you to create flexible surveys by dragging and dropping form elements within a web browser. Easily add, edit, stylize, and rearrange survey questions with no HTML or coding knowledge whatsoever. iSalient provides total control over the way your questions are presented to respondents. E-mail management features allow you to manage survey invitations and passcodes with ease. You can view graphical or text-based reports in real time as your survey is answered, or export the results for analysis in your favorite statistical software. iSalient is available as a ready to use hosted solution, or as an installable PHP/MySQL software product. It is also rebrandable and can be offered as a service to your own clients.
