# PlayCMS Flash Game Arcade Script

Hits: 4,619

**Description:** PlayCMS allows webmasters to open and control their own flash game websites with ease. Visitors can find games with various methods, play them, and rate them. PlayCMS is written in PHP and connected to a MySQL database to store game information making the script fast and efficient.

Features (PlayCMS 2.1):

- Rating system built-in, 1-10.
- mod\_rewrite in use for search-engine-friendly pages
- Games accessible from various locations.
- Instructions available on game page.
- Author information available on game page.
- Online control panel for admin access.
- Ability to link to off-site games.
- Add/Remove/Edit games and categories in the admin panel.
- Counted game plays.
- Latest games list.
- Most played games list.
- Categories/pages module.
- Easy to integrate into a separate design.

Versions with preinstalled games are available. Check our website for details.
