Hour Tracker

Hits: 1,867

Description: Hour Tracker Pro: Time tracking system that allows for multiple employees. Hour Tracker Pro is extremely configurable to any business. Use as an Intranet or Internet time-clock punch system. Hour Tracker Pro is a Web application for .NET Windows server. Features include: Instant view change where the start of the workweek and the structure of the calendar view could be changed at an instance. In manager mode, all time card entries are completely editable and switching to employee interface is as easy as selecting a name.
