Traffic Booster is a great product that uses RSS feeds to drive traffic to any website. It can literally breath life into a failing business. I would highly recommend this product to anyone who needs free, quality website traffic.

My company purchased this unique piece of software a week ago; it really does do what is asked of it. I cannot believe how quickly it creates doorway pages, and the way the Rss feeds works is quite brilliant. The guy's who put this together are very smart, I thank you very much, My page ranking is already on the way up I give you both a 10 out of ten. One very happy customer. 
