vbnuke

Hits: 9,598

Description: Vbnuke is nuke portal modyified to working with vBulletin, it works very fine for english and you can try your language. Now with vbnuke you can register from the nuke and start writing in vb or your can register in vb and write in nuke, also same way to update, change, anything you do in nuke or vb member banel will change for both the nuke and the vbulletin. i added every thing in english, install, explanation and etc.
