05SnowApplet

Hits: 2,394

Description: A Suite of three Christmas snow applets. Presentation is in the form of a Christmas card where each applet uses common components differently and is a variation of the other two providing a choice for personal preference. applet Trinity1 uses an upward scrolling message and is framed. Trinity1b as Trinity1 but with the graphic text scrolling in from the right. Trinity1c is an option that will run faster on slower machines. It is unframed, slightly smaller and the message scrolls from the right.
