Dropdown HTML Element(s)

Hits: 4,033

Description: Unlike JavaScript dropdown menus, this script can be used to dropdown any HTML block. For example, you can use it to create dropdown search forms or hint boxes. Certainly, you can use the script to create dropdown menus as well. The script is very easy to edit and to use. All you need is to add id attributes to HTML elements and write one line of JavaScript code. Online samples are available on homepage.
